

I may come
in tomorrow &
again I may
not. If Mary
is better I
will go with
her. I
think I
perhaps
will come
in June,
got your
(Ms) letter last night.
It is well to let Ann
Jerry talk, but Wendell
ought not to let her
views influence his
judgment for we
are all careful what
we say to Anne of
Mary. Let him
call Marys last

Mary is well & going away

summer attack
nerves. That is the
one thing Books of Dis-
guard experienced
minds against, it
may all seem nerves
but with it is combined
lungs. One person can
have both complaints at
once. Don't no matter,
the way now is to deny
any danger, is the
fashion. Anna Robbins
mother died without its
ever being recognized by
word of mouth that

she was fatally ill, tho'
they all knew it & acted
upon it. Sumner (Charles)
has sent you 14 papers
of seeds from Washington
directed in his own hands
cabbage, celery, radish, &c
French seeds most of
them & I suppose choice
Perhaps you ought
to write to Frank here
He asked you know
about the books. Bill
Bisfield called to ask
if you knew Chase sec
of Treasury, I said no.

He had some funnier
He then asked if you
knew Sumner. I said
yes but he told me
no more. Don't go far
for Bill with any
body.

Did Humphrey
ever give you the deed
of Honey Hill. I have
all the other papers of
the matter just as
they were given me
but not the deed. I never
remember seeing it. Did
you get the deed?
ever yours D.W.
